A "whole"-listic approach to Well-Being

When Shawnee Family Health Center contacted us about furnishing their Portsmouth, Ohio location, we knew we were the right partner for the project! The scope of this initiative included providing furniture for a 45-unit transitional age permanent supportive housing complex. Clinical space on the first floor and housing on all three floors.

Shawnee is a non-profit organization that offers a "whole"-listic approach by helping adults and children achieve the best versions of themselves. By providing comprehensive care in the areas of psychiatric care, primary care, and employment services, Shawnee is able to ensure that every aspect of their patients' needs are being administered. This care consideration leads to better patient outcomes.

One key word to describe how we managed this project - **Details**. Shawnee needed furniture for just about every space. From bedrooms to waiting rooms and there were many aspects to keep track of! We take great pride in getting it right the first time so that furniture move-in day runs smoothly and efficiently without any unwanted surprises or stressors. In some ways, we too take a "whole"-listic approach to our customer interactions. We oversee the details and manage the big picture to ensure the most favorable outcomes! We appreciate your mission, Shawnee! It was our pleasure to be a small part of your journey!
