- ✓ Pet - assisted Therapy
- ✓ Benefits Support
- ✓ Family Reunification
- ✓ Supportive Employment
- ✓ Housing Navigation
- ✓ Psychiatric Medicine Support

Restoring Dignity and Instilling Confidence

We recently partnered with Project 180, an organization dedicated to transforming lives through comprehensive diversion and re-entry programs for Angelenos involved in the criminal justice system. With rates of recidivism as high as 70% in some parts of Los Angeles, Project 180 is making a significant impact by addressing the complex and deep-rooted issues that entangle individuals in the criminal justice system.

Project 180 operates as a "one-stop shop," providing the necessary services to help individuals remake, reclaim, and restart their lives. Their approach is founded on building respectful, trusting, and authentic relationships with each person. The organization is innovative and compassionate, always striving to stay on the cutting edge of behavioral health treatment with evidence-based, holistic care.

Furniture Concepts is proud to have partnered with Project 180 to furnish their facility, creating a welcoming and supportive environment. By providing comfortable and functional furniture, we support Project 180's mission to offer a dignified and compassionate space for individuals on their path to transformation. We are inspired by Project 180's commitment to keeping people out of the criminal justice system. They strengthen their community through practical solutions, tailor-made programs, and compassionate care.
