**Dedicated to Creating Moments of Joy for their Residents**

We are proud to have recently furnished Crocker Pointe Skilled Nursing and Rehabilitation. This remarkable facility is dedicated to providing exceptional care and comfort to its residents.

With carefully chosen furniture we've created an environment that meets the demands of healthcare while fostering a true sense of home and community.

Crocker Pointe features 96 private suites and offers comprehensive healthcare services. These include specialized ventilator management, dialysis care, and rehabilitation therapies.

Our furniture enhances the home-like feel of each resident's private space by supporting comfort and well-being throughout their stay.

As Crocker Pointe continues to set the standard in skilled nursing and rehabilitation, we are honored to contribute to their mission by creating comfortable and inviting spaces.

Residents can heal and connect. They are encouraged to participate in meaningful "moments of joy" activities like music therapy, pet therapy, and community events.
